

Safety Data Sheet (SDS)

Bottom Ash

1. Identification

TRADE NAME(S): Bottom ash

SYNONYMS and/or GRADES: Boiler Bed Ash, Sand

PRODUCT USES: May be used as but not limited to: road base material
cement replacement and structural fill.

DESCRIPTION: A rocky sand type material.

MANUFACTURER'S NAME: Desert View Power

ADDRESS: 62300 Gene Welmas Drive
Mecca Ca 92254

EMERGENCY PHONE: (760) 396-2554

BUSINESS PHONE: (760) 396-2554

REVISED DATE: March 22, 2016

2. Hazard (s) Identification

GHS Classification: Acute Toxicity Oral - Category 4
Acute Toxicity Inhalation - Category 4
Skin Corrosion/Irritation - Category 2
Eye Damage - Category 2A
Carcinogenicity - Not Listed
Specific Target Organ Toxicity Repeat Exposure -
Not Listed
Hazardous to the Aquatic Environment - Category 4

GHS LABEL ELEMENTS: Symbol (s)

Safety Data Sheet (SDS)

2. Hazard (s) Identification cont...

Signal Word:	Danger
Hazard Statements:	Harmful if swallowed or inhaled. Causes skin irritation. Causes serious eye irritation. May cause cancer. Causes damage to organs (respiratory system) through prolonged or repeated exposure. May cause long lasting harmful effects to aquatic life.
Precautionary Statements:	Prevention Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Do not breathe dust. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid release to the environment.
Response Statements:	If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before re-use. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention
Disposal:	Dispose of contents/container in accordance with local/regional/national/international regulations.

3. Composition/Information on Ingredients

General Product Information: Trace amounts of various elements including but not limited to arsenic, antimony, lead, nickel, barium, molybdenum, chromium, mercury, selenium, beryllium, cadmium, lead and zinc may be detected in bed ash as a result of their presence in the source.

Safety Data Sheet (SDS)

3. Composition/Information on Ingredients cont...

Substance	CAS #	Percent
Bottom Ash as Particulate (NOR)	69012-84-6	
Silicon Dioxide	7631-86-9	65 - 70
Aluminum Oxide	1344-28-1	12 - 13
Calcium Oxide	1305-78-8	5.5 - 7
Potassium Oxide	12136-45-7	4 - 5
Iron Oxide	1307-37-1	2.5 - 3.5
Sodium Oxide	1313-59-3	2.5 - 3.0
Magnesium Oxide	1309-48-5	< 2

4. First Aid Measures

First Aid: Eyes

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes, including under the lids. If easy to do, remove contact lenses, if worn. Get medical attention immediately.

First Aid: Skin

If irritation occurs, flush skin with plenty of water. In some cases - e.g., large amounts of flyash still present on the skin – before wetting the product / skin, it may be advisable or appropriate to gently brush - AVOID the generation of dust – the bulk of the flyash from the skin.
Call physician if irritation persists

First Aid: Ingestion

If swallowed, do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If conscious and capable of swallowing, rinse mouth thoroughly with water and then drink plenty of water to dilute the material in the stomach. Get medical attention immediately.

First Aid: Inhalation

Remove to fresh air. Seek medical help if coughing and other symptoms do not subside

Safety Data Sheet (SDS)

5. Fire Fighting Measures

General Fire Hazards:	Not flammable. Firefighters should wear full protective gear.
Extinguishing Media:	Use extinguishing media appropriate for surrounding fire.
Unsuitable Extinguishing Media:	None

6. Accidental Release Measures

Personal Precautions and Protective Equipment:	Wear appropriate protective equipment and clothing during clean-up.
Recovery and Neutralization of Materials and Methods for Clean-Up:	Use scooping, water spraying/flushing/misting or ventilated vacuum cleaning systems to clean up spills. Do not use pressurized air.
Emergency Measures:	Contain the spill or leak. Avoid generating dust. Isolate area. Keep unnecessary personnel away.
Environmental Precautions:	This material is a water pollutant: prevent material from entering drains, sewers, ditches or waterways.

7. Handling and Storage

Handling Procedures:	Avoid contact with skin and eyes. Minimize dust generation and accumulation. Avoid breathing dust. Wear the appropriate respiratory protection against dust in poorly ventilated areas and if TLV is exceeded. Wear the appropriate eye protection against dust. Use good safety and industrial hygiene practices.
Storage Procedures:	Minimize dust produced during loading and unloading. Store in ventilated area away from sources of heat, moisture and incompatible materials.

Safety Data Sheet (SDS)

8. Exposure Controls / Personal Protection

Incompatibilities: Strong acids, Boric oxide, Boron Trifluoride, Phosphorus pentoxide, Chlorates, Chlorine Trifluoride, Chlorine, Ammonium salts and Fluorine.

Component Exposure Limits: Silicon Dioxide (7631-86-9)

ACGIH: 10 mg/m³ TLV

OSHA: 80 mg/m³ TWA

NIOSH: 6 mg/m³ TWA

Aluminum Oxide (1344-28-1)

ACGIH: 5 mg/m³ TLV

OSHA: 15 mg/m³ TWA

NIOSH: 10 mg/m³ TWA

Calcium Oxide (1305-78-8)

ACGIH: 5 mg/m³ TLV

OSHA: 5 mg/m³ TWA

NIOSH: 2 mg/m³ TWA

Iron Oxide (1307-37-1)

ACGIH: 5 mg/m³ TLV

OSHA: 10 mg/m³ TWA

NIOSH: not established

Magnesium Oxide (1309-48-5)

ACGIH: 5 mg/m³ TLV

OSHA: 15 mg/m³ TWA

NIOSH: not established

Silica, Crystalline (14808-60-7)

ACGIH: 0.025 mg/m³

OSHA: 10 / (%SiO₂ + 2)

NIOSH: 0.05 mg/m³

Materials present at less than 10% and greater than 0.5%, and not listed in OSHA or ACGIH include Potassium Oxide, Sodium Oxide, and Carbon

Safety Data Sheet (SDS)

8. Exposure Controls / Personal Protection continued...

Personal Protective Equipment (PPE):

Respiratory protection:	Wear a NIOSH-approved particulate respirator if exposure to airborne particulates is unavoidable and where occupational exposure limits may be exceeded
Eye and face protection:	If eye contact is possible, wear protective glasses with side shields or dust goggles, as appropriate. Avoid contact lenses
Hand and skin protection:	Wear gloves and protective clothing. Wash hands with soap and water after contact with material

9. Physical and Chemical Properties

Appearance: Dark gray to tan sand	Odor: None
pH: >10.8 <11.8 (in water)	Vapor Pressure: Not Applicable
Vapor Density: Not Applicable	Boiling Point: Not Applicable
Melting Point: Not Applicable	Solubility (H2O): Mostly insoluble
Specific Gravity: 2.2-3.4	Evaporation Rate: Not Applicable
VOC: Not Determined	Flash Point: Not Determined
Auto Ignition: Not Determined	
Upper Flammability Limit (UFL): Not Determined	
Lower Flammability Limit (LFL): Not Determined	
N-Octane/H2O Coefficient: Not Determined	
Physical State: Solid / Rocky material that may contain scrap metal	

10. Stability and Reactivity

Chemical Stability:	The material is stable under normal use conditions.
Reaction Potential:	The material is a stable, inert material.
Conditions to Avoid:	May want to screen material for metal depending on end use.
Decomposition Products:	NONE

Safety Data Sheet (SDS)

11. Toxicological Information

Acute Toxicity:

Silicon Dioxide (7631-86-9) Oral LD50
Rat >10000 mg/kg

Iron oxide (1307-37-1) Oral LD50
Rat 5000 mg/kg

Sodium oxide (1313-59-3) Oral LD50
Rat 100 mg/kg

Crystalline Silica (1408-60-7) Oral LD50
Rat >22,500 mg/kg

Substances not listed have no established oral LD50

Potential Health Effects Skin: May cause skin irritation.

Potential Health Effects Eye: May cause chemical burns. Causes irritation (possibly severe).

Potential Health Effects Ingestion:

May be harmful if swallowed. May cause stomach distress, nausea or vomiting. May cause burning of mouth, throat and esophagus.

Potential Health Effects Inhalation:

Exposure to dust generated during the handling or use of the product may irritate eyes, skin, nose, throat and upper respiratory tract.

Respiratory Organs Sensitization/Skin Sensitization:

This product is not reported to have any sensitization effects.

Reproductive Toxicity:

This product is not reported to have any reproductive toxicity effects.

Carcinogenicity General Product Information:

This product is not listed as a carcinogenic.

Safety Data Sheet (SDS)

11. Toxicological Information cont...

Other Toxicological Information:

Repeated exposure to calcium oxide has shown to cause ulceration of the nasal septum, bronchitis and pneumonia. Chronic inhalation of silica quartz may cause autoimmune disease. Chronic exposure to an ingredient in this mixture has been reported to cause renal injury and adverse effects on visual acuity.

12. Ecological Information

Environmental Fate:

Materials can be used as an soil amendment, concrete filler, road base and is suitable for land fill.

This product may cause long-term adverse effects in the aquatic environment.

Calcium oxide (1305-78-8)

Test & Species 96 Hr LC50 Cyprinus carpio
1070 mg/L [static]

13. Disposal Considerations

Dispose of all waste product and containers in accordance with federal, state and local regulations.

See Sections 7 and 8 above for safe handling and use, including appropriate hygienic practices.

14. Transport Information

Mode Land, Air or Water:

Not regulated as a hazardous material by the U.S. Department of Transportation.
Not listed as a hazardous material in Canadian Transportation of Dangerous Goods (TDG) regulations.

Shipping Name:

Not Regulated

Hazard Class:

Not Regulated

ID Number:

Not Regulated

Safety Data Sheet (SDS)

15. Regulatory Information

TSCA Inventory Status:	All components are listed on the TSCA Inventory.												
California Proposition 65:	The following substances are known to the State of California to be carcinogens. * Respirable crystalline silica												
OSHA:	Bottom ash and all listed ingredients are considered by OSHA to be hazardous chemicals or irritants and should be included in the employers hazardous communication program.												
SARA 311/312:	<p>This product has been reviewed under SARA Title III Section 311 & 312 and has been determined to meet the following categories:</p> <table><tr><td>An immediate health hazard</td><td>Yes</td></tr><tr><td>A delayed (chronic) health hazard</td><td>Yes</td></tr><tr><td>A corrosive hazard</td><td>No</td></tr><tr><td>A fire hazard</td><td>No</td></tr><tr><td>A reactive hazard</td><td>No</td></tr><tr><td>A sudden release hazard</td><td>No</td></tr></table>	An immediate health hazard	Yes	A delayed (chronic) health hazard	Yes	A corrosive hazard	No	A fire hazard	No	A reactive hazard	No	A sudden release hazard	No
An immediate health hazard	Yes												
A delayed (chronic) health hazard	Yes												
A corrosive hazard	No												
A fire hazard	No												
A reactive hazard	No												
A sudden release hazard	No												
SARA 313:	Bottom ash is not a SARA 313 substance.												
FDA:	Not intended for use as a food additive or food contact item.												

16. Additional Information

Hazardous Material Information System (HMIS):

Health	1 *
Flammability	0
Physical Hazard	0
Protective Equipment	B

* For further information on health effects, see Sections 2, 8 and 11 of this MSDS.

WHMIS Classification: Controlled product: E (corrosive)

Safety Data Sheet (SDS)

16. Additional Information cont...

Date Prepared: 03/12/2016

Prepared By: Desert View Power Safety & Environmental Office

Abbreviations and Acronyms

ACGIH: American Conference of Industrial Hygienists

OSHA: Occupational Safety and Health Administration

NIOSH: National Institute of Occupational Safety and Health

TSCA: Toxic Substances Control Act

GHS: Globally Harmonized System

EC50: Effective Concentration That Inhibits the Endpoint to 50% of Control Population

LD50: Dose resulting in the mortality of 50% of an animal population

LC50: Concentration resulting in the mortality of 50% of an animal population

VOC: Volatile Organic Compound

NOR: Not Otherwise Regulated

Other Information

The information contained in this Safety Data Sheet is based on the experience of the safety & environmental professionals at Desert View Power and comes from sources believed to be accurate or otherwise technically correct at the time of preparation. It is the responsibility of the user to investigate and understand other pertinent sources of information, and to comply with all laws and procedures applicable to the safe handling and use of the product. It is also the users responsibility to determine the suitability of the product for its intended end use.
